

Delivery specifications E-motionBox packaging

Size: 132 x 150 x 35 mm

Download the document with the name
'[Template E-motionBox Packaging.idml](#)' or
'[Template E-motionBox Packaging.pdf](#)' for the layout of the
E-motionBox packaging.

- Create your design in the layer with the name 'Artwork'.
- Deliver as a high resolution pdf file (pdf/x-1a-2001).
- The pdf file to be supplied consists of 1 page and has size 305x420mm.
- Overfill and cutting marks is not required.
- Possible photos at least 300 dpi.
- Converting text into outlines to eliminate fonts problems.
- Convert any Pantone colours to CMYK.
- **Please note:** If your design is finished and you export the file to pdf, please deactivate the layer named 'Embossing mould' so that the embossing lines of the envelope will not appear in the eventual pdf. Otherwise they would be printed as well.
